#### **DAHLIAS**

#### GROW MORE OF THESE GORGEOUS FLOWERS

It's easy with our strong roots. Plant after danger of frost. Disbud side blooms for bigger flowers. Pinching top growth makes bushier plants. Dig after frost and store in sand or sawdust in dry place. Divide and plant with only one eye for each plant for best results.

The following dahlias may be bought separately or in collections:

### BALL TYPE DAHLIAS

## HARDY MUMS

Now we can have a riot of color in late summer and fall when other flowers are gone. These garden mums are very hardy, even after hard frosts the buds will open every day with a lot more flowers. We send strong, well rooted plants in May. Plant with a little water in a hole as you do tomatoes. They can be grown in garden and easily moved when ready to bloom to a better place or potted they make a nice plant to take in the house or give away and will bloom inside for a long time. Cover the plants in fall with dirt, mound up so water will not stand or they may be taken into a cold frame or kept will not stand or they may be taken into a cold frame or kept in the basement. Divide in spring for best results. Pinching out the tops makes bushier plants and keep them low growing.
